## CLOSING SUMMARY

My life has been filled with racing. From motorcycles to race cars to NASCAR trucks and back to motorcycles. From 1974 to 2001, racing myself. In 2001 to current, I decided to take my lessons learned and wealth of experience to start building this motorcycle race team. Our team has evolved into one of the best in the world. We are surrounded with great riders, personnel, sponsors, family, friends and fans.

We will again compete for Off Road race wins and championships in 2015. We are getting bigger and better with live audiences, television, radio, social media, press releases, newsletters, race reports. A full range of added promotional value and exposure for our sponsors.

We currently have a great group of men and women riders all ready and capable to win future races and championships. All professional representatives for our sponsors.

Six of our events will be World rounds in 2015. Four more will be in Canada. The other 20 plus events are in all regions of the U.S., from Seattle to Florida.

We have been a KTM Factory Support Team with many of the same team sponsors for over a decade.

Our team slogan says it all. "SUCCESS IS OUR ONLY OPTION". It's the only option for everyone involved.

Please consider joining us for a great future of results, exposure and ultimately increased business from all of us working together.
